How to: Update a drop box with the plagiarism tool, TurnItIn

First, click on the drop down menu, next to the name of the drop box. **Then** select **Edit**.

Folder Properties

Name *

LP3.1 Assignment: Compare & Contrast Essay - Dra

Originality Checking

☒ Enable for this folder [How does originality checking work?](#)

Folder Type

Individual submission folder

[Show Advanced Originality Checking Options](#)

Next, inside the edit function of the drop box, you will click in the box underneath *Originality Checking*, labeled 'Enable for this folder.' This will activate turnitin.com to analyze each submission to that drop box.

Next, scroll down to the bottom of the screen. Identify if you wish for students to also view the Originality Report from turnitin (recommended). To do this, expand the [Show Advanced Plagiarism Detection Options](#) as seen above.

Then, checkmark *Allow submitters to see Originality Reports*. You can even select a day in which to release the results to students.

Originality Checking Options

Originality Reports

☒ Generate Originality Reports
